

DIGITEK REFUND FLOW

Faster triage. Safer decisions. Human control where it matters.

AI Implementation & Automation
Intern Assessment
Digitek Camera Accessories
By LEISHA NAMPALLY

Customer sends refund request

Support reads the email

Order & issue details are checked

Refund/replacement is verified

Today: Refund Journey Is Manual ✨

WHY THIS NEEDS
AUTOMATION:

6 manual steps

Repetitive support work

Slower response times

Refund decisions still require human judgement.

Automate the Repetitive. Escalate the Risky. ✨

AI handles repetitive triage, extraction and routing. Humans handle decisions that require live systems, judgement or exceptions.

AI HANDLES

- ✓ Read & classify emails
- ✓ Extract customer details
- ✓ Detect urgency
- ✓ Summarize requests
- ✓ Log & route cases

HUMAN HANDLES

- ✓ Refund decisions
- ✓ Live order verification
- ✓ Replacement approval
- ✓ Exceptions & complaints

The Digitek AI Support Flow

RECEIVE

Gmail Trigger

Customer emails enter the support workflow automatically.

UNDERSTAND

Gemini AI

Classifies requests and extracts customer and order details.

DECIDE

Human Review

Unclear or high-risk cases are escalated for human judgement.

ROUTE

n8n + Google Sheets

Logs the case and routes it to the correct response path.

Gmail → AI Triage → Human Review → Category Routing → Customer Response

Tested on 6 Customer Scenarios

01 — ORDER STATUS

Ankit
Order DGT25412
Human Review

02 — RETURN / REFUND

Priya
Order DGT25877
Human Review

03 — BULK ORDER

Rakesh
40 wireless mics +
40 tripods
Human Review

04 — PRODUCT QUESTION

Gimbal compatibility
iPhone 15 Pro Max
Human Review

05 — SPAM

06 — COMPLAINT

Sameer
Refund pending 15
days
Human Review

BEFORE

Manual Support
~5 min / case

Read → Classify → Log → Acknowledge

From Manual Work to Intelligent Support

≈80%

LESS REPETITIVE HANDLING TIME

At 100 cases/day
8.3 hrs manual → 1.7 hrs AI-assisted
≈6.7 hrs/day potential saving

AI reduces repetitive triage, logging and acknowledgement work — allowing support teams to focus on decisions that require human judgement.

AFTER

AI-Assisted Support
~1 min / case

Triage → Extract → Log → Escalate

AI prepares the case.
Humans make the decisions.
Faster. Safer. More consistent.
Human-in-the-loop by design
